The Story

Welcome to the Roundabout Diner & Lounge and the home of CHILL Catering, our idea of what a comfortable but cool restaurant should be! The Founders of the original Muddy River Smokehouse, the MR Marketplace and MR catering, are bringing you something new and exciting. Created on the notion that the area needs a convenient, comfortable restaurant where the staff should know all our regulars by name and where our guests should all feel like regulars, the Roundabout is the place to enjoy a fantastic breakfast, lunch or dinner any time of day. Featuring local organic products whenever we can and doing our part to "go green" by recycling our paper goods, cooking oils and composting our food wastes, we are committed to making good choices for our customers and the environment too! So if you were a fan of the original Muddy River Smokehouse, don't worry, your old favorites are here and we are quite sure you will discover some new ones as well.
