

To Whom It May Concern,

GreenPages Technology Solutions has been working with Chill Catering (Formerly Muddy River Catering) for over 5 years. The Chill Catering staff has always been a pleasure to work. They have been able to accommodate any catering needs that have arisen throughout the years and are very flexible with their menu items. I personally always look forward to working on an event with Chill Catering as I know everything will be perfect as Gary is one of the most detailed oriented caterer's I have ever worked. We have worked on events from 20 people to 350 people in size and I have never been disappointed with their professional and customer service. I would recommend Chill Catering to anyone that is looking to book a caterer for an event.

Best Regards ,
